

BD Biosciences FACSCount Flow Cytometer

Manufacturer: Becton Dickinson

SKU#: 8044-30-1002

- Easy to install set up and run -uses whole blood
- Reliable results independent of user training due to simple operation.
- Results produced are objective and require no interpretation of subjective analysis.

Product Description

The BD FACSCount™ System is a complete, dedicated system for automatically counting CD4+, CD8+, and CD3+ T lymphocytes. These cell counts are used to monitor the immune status of persons infected with HIV. The compact, self-contained system, incorporating instrument, reagents, and controls, eliminates the need for hematology results to obtain absolute count values and reduces variability or simplifies the sample preparation procedure. The BD FACSCount System uses whole blood, eliminating lyse and wash steps. A unique software algorithm automatically identifies the lymphocyte populations of interest. Easy-to-use, cost effective, and reliable in the clinical laboratory, the BD FACSCount System is designed to utilize the power and advantages of flow cytometry for the enumeration of absolute and percent CD4+ T-lymphocytes. Having one system giving both results should reduce the cost and thus increase access to CD4 testing for pediatric and adult patients.

BD Biosciences FACSCount Flow Cytometer Specification

WHY BUY FROM GMI?

Your trusted source for Used & New lab equipments, Parts, Factory Clearance instrument service since 1985.

Shop a comprehensive selection of brand new lab instruments from trusted brand names.

Enjoy big savings on New Instrument purchases with our Trade In & Trade Up Program.

Experience customer-driven services. We offer training and installation options as well as multi-year service agreements.

GMI is a ISO 9001:2008 certified company - your proof that your instrument purchase from GMI passes through rigorous refurbishing, recalibration, and recertification process, arriving at your laboratory in fully working order and defect free. We are not an auction company, nor are we an instrument broker... getting in

the middle of 'deals'. All items come complete with the final QC date, engineer's ID# and a copy of test results / QC data, if applicable. Additionally, all items are thoroughly cleaned and professionally packaged / crated with care to ensure they arrive safely in your lab ready for professional installation.
