

Beckman Synchron CX3 Clinical System

Manufacturer: Beckman Coulter

SKU#: 8043-30-0004

- Processes up to 75 samples or 600 tests per hour
- Fast analysis of frequently-used analytes
- Minimal preparation requirements
- Easy-to-learn and quick-to-operate instrument

Product Description

Beckman Coulter's Synchron CX Chemistry Analyzer Series is designed for diverse procedures including drug analysis, and biological fluid analyses, as well as other qualitative and quantitative applications. These Beckman Synchron CX Clinical Systems offer convenient and rapid processing for your clinical analysis needs. Synchron CX3 Chemistry Analyzer Rapid response testing requires minimal preparation but fast sample analysis. The Beckman Synchron CX3 Clinical System offers convenient and responsive system preparation to immediately carry out STAT testing procedures. The user-friendly Synchron CX3 is specifically designed to efficiently handle commonly administered diagnostic tests. This model boasts of logical one-touch programming and sample barcode identification features, thus simplifying the processing methods and reducing errors. Ensure that results are consistently reliable with the Synchron CX3's unsurpassed Ion Selective Electrode (ISE) technology and premier methodologies for Calcium, BUN/Urea, Creatinine and Glucose processing. Call us today to learn more about the Beckman Synchron CX3 Clinical System!
