

Roche Hitachi 717 Chemistry Analyzer

Manufacturer: Roche Hitachi

SKU#: 8177-30-0010

- Fully Automated and Discrete
- Intended for in vitro quantitative and qualitative determinations
- Instrument is capable of performing potentiometric and photometric assays
- Refrigerated storage for 64 reagent containers
- Over 80 test menus.

Product Description

The Hitachi 717 Chemistry Analyzer from Roche Diagnostics is a sophisticated, top-performing clinical chemistry workhorse equipment for small to mid-range workload laboratories. Engineered for consistent and precise potentiometric and photometric assays, this powerful system ensures speed, reliability and flexibility in sample analysis in routine/general chemistries, drugs of abuse, and special chemistry applications. This chemistry analyzer is also highly efficient in delivering in-vitro quantitative and qualitative chemical analysis, positive sample ID, in-process quality control analysis, and non-linear data-reduction for diverse clinical laboratories and healthcare centers. This Chemistry Analyzer by Roche Diagnostics is fully automated and equipped with refrigerated storage for 64 reagent containers with multi-tray programming, 35 on-line tests, and packaging of over 80 test menus. WHY BUY FROM GMI?

Your trusted source for Used & New lab equipments, Parts, Factory Clearance instrument service since 1985.

Shop a comprehensive selection of brand new lab instruments from trusted brand names.

Enjoy big savings on New Instrument purchases with our Trade In & Trade Up Program.

Experience customer-driven services. We offer training and installation options as well as multi-year service agreements.

GMI is a ISO 9001:2008 certified company - your proof that your instrument purchase from GMI passes through rigorous refurbishing, recalibration, and recertification process, arriving at your laboratory in fully

working order and defect free. We are not an auction company, nor are we an instrument broker... getting in the middle of 'deals'. All items come complete with the final QC date, engineer's ID# and a copy of test results / QC data, if applicable. Additionally, all items are thoroughly cleaned and professionally packaged / crated with care to ensure they arrive safely in your lab ready for professional installation.
