

Undercounter water cooler

CWP 100

- The **CWP 100** Undercounter Water Cooler stands out from conventional water coolers not only because of its design and processing quality, but because of the completely **innovative arrangement of the cooling unit, high performance, light weight, small dimensions and simple design.** Construction of the **CWP 100** is a **complete innovation in this category of beverage coolers.**
- This machine has a continuous cooling performance of 80-90l/ hour, max. 100l/ hour.
- The modern compressor cooling unit uses the power input for direct transfer to chilling, which guarantees minimum energy usage.
- **LINDR cooling technology is 45% more efficient** than its power input.
- High-quality and evenly cooled beverage **runs without any temperature shock** in a sufficiently long stainless steel coil. High quality chilled beverages will be ready within 8-10 minutes after the cooler has been switched on and its temperature can be controlled instantly and continuously by using the temperature controller.
- The CWP 100 is equipped with an accompanying submersible pump to secure perfect cooling of the beverage right up to the tap.
- Modern arrangement of the cooling technology guarantees simple operation and reduces the time demanded for maintenance and servicing.
- The materials used meet the highest requirements for hygiene standards and guarantee a long working life of this cooler.
