

# Undercounter water cooler

## CWP 200 mobil GREEN LINE

Environmentally friendly

NEW MODEL

● The **CWP 200 GREEN LINE** - mobil Water Cooler stands out from conventional water coolers not only because of its design and processing quality, but because of the completely innovative arrangement of the cooling unit, high performance, light weight, small dimensions and simple design. Construction of the **CWP 200 GREEN LINE - mobile is a complete innovation**

**in this category of beverage coolers.**

- The **GREEN LINE** cooler series is not only environmentally friendly thanks to the use of ecological **refrigerant R-290**, but also has a **20% Higher cooling power** and **20% Lower electric consumption**. We perform an energy saving system in the production, the cooler is made of fully recyclable materials and without any polyurethane insulation.
- This machine has a continuous cooling performance of 170-190 l / hour, max. 200 l / hour.
- The modern compressor cooling unit uses the power input for direct transfer to chilling, which guarantees minimum energy usage.
- **LINDR cooling technology is 45% more efficient** than its power input.
- High-quality and evenly cooled beverage runs without any temperature shock in a sufficiently long stainless steel coil. High-quality chilled beverages will be ready within 8-10 minutes after the cooler has been switched on and its temperature can be controlled instantly and continuously by using the temperature controller.
- The **CWP 200 GREEN LINE - mobile** is equipped with an accompanying submersible pump to secure perfect cooling of the beverage right up to the tap.
- Modern arrangement of the cooling technology guarantees simple operation and reduces the time demanded for maintenance and servicing.
- The materials used meet the highest requirements for hygiene standards and guarantee a long working life of this cooler.
