

ROLL STOCK LIDDING

Rewind Chart

Notes:

- (1) Registration marks can be printed if required.
- (2) Infinite repeat requirements can be printed.
- (3) Roll stock lidding is available in all materials used for daisy chain and die-cut applications. Material selection is dependent upon application.

Standard Roll Stock Information

	Minimum Width inches (mm)	Maximum Width inches (mm)	Max. Roll O.D. inches (mm)	Standard Core Sizes inches (mm)	Max. Roll Weight lbs. (kg)
Printed	0.75 (19)	24 (610)	32 (813)	3 (76) 6 (152)	45 (20)
Packaging	Each roll is packed in a plastic bag and placed on a skid with a plug to prevent movement. A cardboard sheet separates each row of rolls. Corner guards are placed on completed skids and each skid is stretch wrapped. Custom packaging per customer requirements is available.				

All values are nominal and do not include standard manufacturing tolerances.
All sales are subject to Winpak's terms and conditions.
