

ALKAR Multi-Product

PROCESS FLEXIBILITY

- Steam, water, or dry cook
- Natural or liquid smoke
- Brine, water, or air chill
- Independent conveyor speed control
- Process different products in each lane

PROVEN WALKING BEAM CONVEYOR SYSTEM

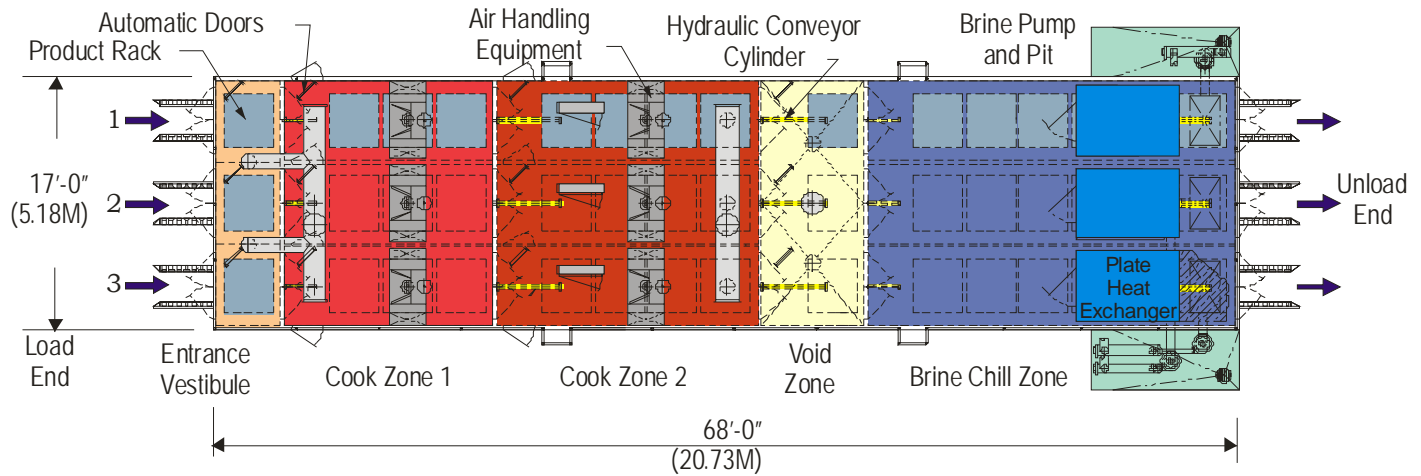

Roller Bed Type

In-Floor Truck Type

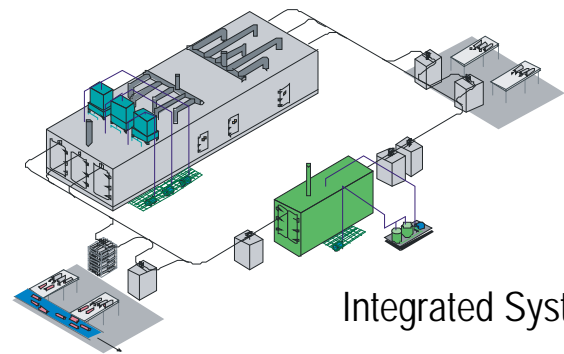

Overhead Rail Type

- Durable design for high density/heavy loading to maximize capacity
- Stainless-steel conveyor and hydraulic drive system

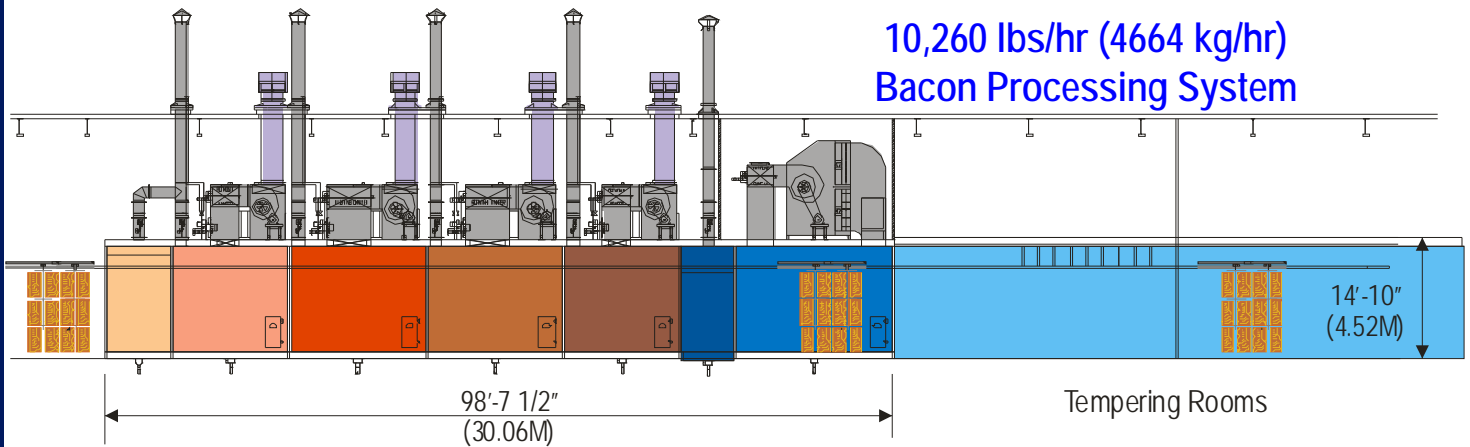

ALKAR Multi-Product

8,800 lbs/hr (3992 kg/hr) Bologna System

Integrated Systems

10,260 lbs/hr (4664 kg/hr) Bacon Processing System

PROCESS CONTROL

- Programmable temperature, % relative humidity and conveyor control
- Automatic doors isolate zones
- Superior air handling ensures uniformity
- Staging conveyors at load / unload areas
